How much does it cost to send my child to St Brigid's School 2026

At St Brigid's School, like most schools (state/private), we receive most of our funding (93%) for each child from the Federal and State Governments. To enable St Brigid's to conduct our educational program effectively we operate a fee schedule for each student. We understand the financial pressure many of our families are under and are always trying to keep fees as low as possible.
